Ulm, February 13th, 2023.

Ulrich Medical increases sales by 12 percent

The Ulm-based medical technology manufacturer is again reporting significant growth for 2022: at around 136 million euros, the company was able to increase its sales by 12 percent compared to the previous year.

The overall group closes 2022 with a profit in the double-digit million range. The company again succeeded in significantly topping the average sales growth of 3.3 percent in the medical technology sector as determined in the BVMed autumn survey*. "Thanks to the consistent implementation of our sustainable business development strategy and our high-quality products, which users value, as well as the high level of commitment shown by all our employees, we have succeeded in continuing on our growth path," says Chief Executive Officer Klaus Kiesel. Christoph Ulrich, Managing Partner of Ulrich Medical, adds: "We are proud of the result and look positively towards the new business year. With the unrestricted supply capability of our products, we are and will remain a reliable partner for our customers in 2023."

About Ulrich Medical

Ulrich GmbH & Co. KG, Ulrich Medical for short, develops, produces and distributes spinal systems and contrast media injectors. The family-owned company, founded in 1912, employs a total of around 500 people at its headquarters in Ulm and its two subsidiaries in France and the USA. While the products are used worldwide, the medical technology company focuses on "Made in Germany" quality, making it one of the few in the industry that consistently develops and manufactures its products in Germany. Ulrich Medical successfully underwent an MDR audit in January 2020 – as one of the first medical technology manufacturers in Germany. In addition, the F.A.Z. Institute named Ulrich Medical 2022 one of Germany's "Innovation Leaders" for the fourth time in a row.
